[PUT YOUR NAME/S]

(6 blank spaces)

A project submitted in partial fulfillment of the requirements for the degree of Bachelor of Science (B.Sc.) in Computer Science and Information Technology awarded by IOST, Tribhuvan University

**Commented [Mr.2]:** Times Roman, with 12 pts normal

(6 blank spaces)

[NAME OF THE COLLEGE]

[ADDRESS]

Nepal

(4 blank spaces)

[MONTH, YEAR]

**Commented [Mr.3]:** Times Roman with 12 pts normal

**Disclaimer**

**Commented [Mr.4]:** Times Roman, 12 pts and normal

(4 blank spaces)

I hereby declare that this study entitled.....(**put the title of the project here**).....is based on my original research work. Related works on the topic, by other researchers, have been duly acknowledged. I owe all the liabilities relating to accuracy and authenticity of the data or any other information included hereunder.

(5 blank spaces)

Signature:

Name of the Student:

Date:

**Recommendation**

**Commented [Mr.5]:** Times Roman, 12 pts and bold

(4 blank spaces)

This is to certify that this project entitled, .....**(put the title of the project here)**..... prepared and submitted by .....**(put the name of the student here)**....., in partial fulfillment of the requirements of the degree of **Bachelor of science (B.Sc.)** in Computer Science and Information Technology awarded by Tribhuvan University, has been completed under my supervision. I recommend the same for acceptance by Tribhuvan University.

(5 blank spaces)

..... **(Name)**.....                      ..... **(Signature)**.....                      ..... **(Date signed)**.....  
Head/Program Coordinator

## **Acknowledgment**

(4 blank spaces)

Please thank and acknowledge all personnel who have provided their valuable time and suggestions to make your research work a reality. Try to include all those who have been engaged in your work directly or indirectly.

**Commented [Mr.7]:** Times Roman, 12 pts and bold

## **Abstract**

(4 blank spaces)

This is the jest of the project, report or dissertation that you have carried out. Be very precise on this part as it informs prospective readers about its contents. As a brief summary of the candidate's principal research findings, the abstract should state the problem being investigated and outline the method of investigation, the results obtained, and the conclusions reached. It should be a concise guide to the entire study as it functions chiefly as a guide to students and scholars surveying research in their field.

The abstract is written at the last but appears in the front, should be simple in English. Always be cautious not to include internal headings or parenthetical citations of items listed in the bibliography/list of references. Figures and tables should not appear in the abstract.

Note: Not more than 150 words followed by keywords.

**Commented [Mr.8]:** Times Roman, 12 pts, Italicized and bold

**Table of contents**

(4 blank spaces)

**Commented [Mr.9]:** Times Roman, bold, 12 pts

AI Artificial Intelligence  
FCFS First Come First Serve

*The list of abbreviation and acronyms be organized in alphabetical order*

**Commented [Mr.21]:** Times Roman 12 pts bold

## NOTES

### Length of the Thesis

There is no limitation to the length of the thesis that you produce, as this depends entirely on the theme that you work on. Always be ready to incorporate the important contexts only, do not include the unreasonable and unnecessary texts. However for Bachelors Project the threshold level can be set to at least 25 pages (From Chapter 1 to Chapter 5)

### Font size, character, line spacing and margins

It is highly recommended that you give consistency to the thesis writing. This gives an impression of good writing skills. The students are suggested to use **Times New Roman font size 12 points with single line spacing and bold wherever necessary as prescribed in the format**. The heading should be of **12 points**. Please adopt the following margin allocations in developing the text:

Left margin	3 cm	1.2 inch
Right margin	2.5 cm	1 inch
Top margin	2.5 cm	1 inch
Bottom margin	2.5 cm	1 inch

### Heading

All the headings put in **12 pts** in **Times New Roman** and made **bold**. Allow **one line** spacing below the **primary and higher level headings**. For example;

<b>Chapter 1</b>
<b>Introduction</b>
<b>1.1 Background</b>

### Paragraph

Leave one line between the two paragraphs to distinguish the text. Ensure logical sequence, connectedness and consistency in each paragraph. For example,

### Bullets and numbering

Use bullets and numbering cautiously. Following pattern of numbering is proposed in organizing the text:

1 <sup>st</sup> level (heading)	1
2 <sup>nd</sup> level (sub-heading)	1.1
3 <sup>rd</sup> level (sub-sub heading)	1.1.1
4 <sup>th</sup> level	I, II, III

5 <sup>th</sup> level	i, ii, iii
6 <sup>th</sup> level	a, b, c

**Tables and figures (Centered)**

Try to integrate the figures and tables into the main body of the text. Use minimum font size of 11 pts in developing figures and tables. All tables and figures used in the text must be appropriately numbered and captioned. For example,

**For chapter 1**

Figure 1.1 ..... (Below Figure, Centralized)  
 Table 1.1 ..... (Above Table, Centralized)

**For Chapter 2**

Figure 2.1 .....  
**Table 2.1** .....

Leave **one line** between the figure/table and the caption. In order to ensure connectedness, **describe the tables/figures in the text first before putting them at appropriate location.**

**Page number**

Always put the page number at the **bottom centre** of the page in **Times New Roman** with regular **font size 11**.

**Appendices**

The appendices, if any, should be put to the end of the text, after the List of References. All appendices should be numbered as Appendix A, Appendix B, Appendix C, and so on.
