

Notice

Please, join us for an interactive workshop with Dr. Ramesh Dhungana, Assistant Professor (Teaching) from University of Colorado, Denver, where you'll learn to harness the latest AI tools to transform your teaching. Using NotebookLM, Google's powerful AI assistant, you'll create personalized study guides, notes, and even podcasts from your existing content. We'll also explore Veo 2, a state-of-the-art video generation model, to see how it can revolutionize educational content creation. Plus, discover the power of TikZ on LaTeX in NotebookLM to craft professional-quality sketches and diagrams for your notes and presentations. Please be sure to bring your laptop—this session is hands-on!

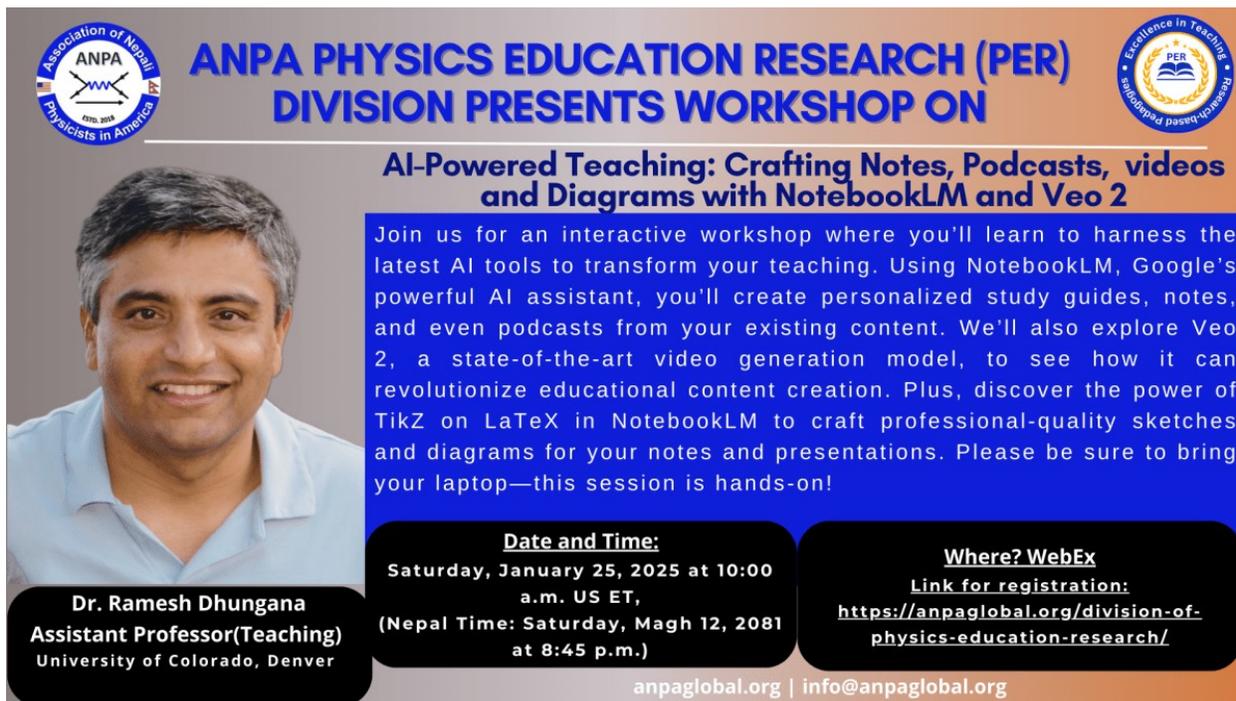

Date and Time: [Saturday, January 25, 2025 at 10:00 a.m. US ET](#)

(Nepal Time: Saturday, Magh 12, 2081 at 8:45 p.m.)

Where?: WebEx (Registration required for Non-ANPA members)

Please register to get the WebEX link into your mailbox.
